[Date on Request]

Dear Hiring Manager,

I am writing to express my interest in available internship, OJT, or entry-level opportunities in the Information Technology field. I am currently pursuing a Bachelor of Science in Information Technology, and I am eager to apply the knowledge and skills I have developed through my studies while gaining practical experience in a professional environment.

Throughout my coursework, I have gained foundational knowledge and hands-on experience in programming, databases, and various IT-related tools. I have worked with Python, Java, C#, JavaScript, HTML, CSS, MySQL, SAP S/4HANA, and AutoCAD through school activities and laboratory exercises. I have also gained practical exposure to IT support and data encoding, including assisting with computer workstation and printer setup and organizing records using Microsoft Excel.

I am particularly interested in opportunities where I can develop my technical, analytical, and problem-solving skills, especially in areas such as IT support and systems-related work. I understand that I still have much to learn, and I am willing to undergo training, accept feedback, and adapt to new technologies and workplace practices. I believe my patience, dedication, and willingness to learn will help me contribute positively to a team.

I would appreciate the opportunity to discuss how my background, skills, and enthusiasm could contribute to your organization. Thank you for your time and consideration. I look forward to the possibility of learning and growing professionally with your team.

Sincerely,

Ryedzel Miguel C. Herrera
